In this session, we will learn about web Quest lesson and components

Requirements:

WebQuests must meet the following conditions:

1. Website content must pertain to an Internet-based exploration of a topic. A WebQuest is designed to be a group effort, containing different "Roles" for the different members of the group, all contributing uniquely to the project. It is not merely the posting of an individual student assignment that utilizes the internet for research.

- 2. All materials for completing the WebQuest must be available on the site or through the internet links. The site must be fully usable by teachers from any school.
- 3. Website content may not be used to post classroom assignments, due dates or any other teacher or classroom-specific information.
- 4. Website content must contain internet links, and incorporate them as an integral part of the "quest". It may not be used to post projects unrelated to the internet.
- 5. Website content must include a Task and a Process towards a clear student deliverable. It cannot be used merely a means to post a list of links.
- 6. Web quest should contain all sections:

Introduction, Task, Resources, Process, Evaluation, and Conclusion

7. You must publish your web quest and include a link to access to your PowerPoint.

Instructions for this session:

1) Watch the youtube video about Webquests

http://www.youtube.com/watch?v=iJnOrKKQ9f8

http://www.slideshare.net/lucram/webquests-a-tool-to-develop-thinking-skills

- 2) Review the PowerPoint Presentation that pertains to this class
- 3) Prepare the assignment:
 - a. Surf the web and discover some cool Web Quests...
 - b. Pick a Web Quest you could use in your classroom and share that site with the group.
 - c. Post that information in Blackboard's discussion board: "Interesting Web quests"
- 4) Set up an account in www.zunal.com to prepare your own web quest
